

There are facts of evolution. Natural Selection is the Theory

Darwin – The Origin of the Species

“Not one living species will transmit as unaltered likeness to a distant futurity.”

“Natura non facit saltum”

Darwin – Descent of Man

“The most humble organism is something much higher than the inorganic dust under our feet.”

“... if he is to advance still higher, it is feared that he must remain subject to a severe struggle.”

“... the fact of his having thus risen, instead of having been aboriginally placed here, may give him hope for a still higher destiny in the distant future.
