

ASTRONOMY GRADUATE STUDENT EVALUATION

FORM A - GRADUATE COURSE WORK

Student's Name _____

Semester _____

Person Evaluating _____

Date Due _____

Course _____

Return to Rachel Walker

**NOTE: The student will have access to this evaluation after the GSC meeting in which it is discussed.*

1. What grade did the student receive in your course?
2. Place this grade in perspective by giving the average grade, the grade distribution, or a suitable equivalent.

3. If the grade does not truly reflect the student's abilities, please explain.

4. Based on your experience, do you believe this student should be advised to proceed to the PhD?

5. Any other comments are welcome. For example, you may want to discuss the background and preparation of the student.

6. (Supervisor – please fill out this table as well to evaluate the student's specific performance in each area)

	Not Applicable	0 Unsatisfactory	1 Satisfactory	2 Good	3 Excellent
Problem Solving Skills (e.g. homework assn. problem solving)					
Ability to Assimilate Literature					
Term Project					
Oral Presentation					
Tests					
Classroom Participation: ability to ask and answer questions					

PLEASE USE A SEALED ENVELOPE TO RETURN.
