

How to use the UT Libraries Catalog to find books held at Périquier

Go to www.lib.utexas.edu.

Under Research Tools, choose Library Catalog.

The screenshot shows the University of Texas Libraries website. At the top, it says "WHAT STARTS HERE CHANGES THE WORLD THE UNIVERSITY OF TEXAS AT AUSTIN". Below that is the "University of Texas Libraries" logo. The main navigation bar includes "see all choices", "About the Libraries", "Research Tools", and "Library". The "Research Tools" menu is open, showing options like "Library Catalog", "Find Articles using Databases", "Find Articles using CrossSearch", "Find a Journal", "Find a Book", "Find a Map", "News and Newspapers", "Government Information", "Research by Subject", "Reference Sites", and "Library Widgets". The "Library Catalog" option is circled in orange. A blue box with a white background and a blue border contains the text "Select here for more search options" with an arrow pointing to the "Library Catalog" option. Another blue box with a white background and a blue border contains the text "This box defaults to keyword search and all locations" with an arrow pointing to the search input field in the "BOOKS & MORE" section. The search input field contains the text "Search for books and other materials in". Below the search input field are two radio buttons: "Catalog" (selected) and "WorldCat@U". At the bottom of the page, there is a blue button labeled "for Students" and a link to "NoodleBib".

The catalog will not tell you if a book is checked out or otherwise unavailable. Continue to check for a red flag on the shelf to tell you where the book is if it is not in the library.
