

AST 301
Homework #10
Due Friday Nov. 21

1. There was an article in the newspapers this morning (11/14) about a picture taken of a planet orbiting around another star. I found the article at www.statesman.com, under news, nation&world for 11/14/08. I heard it was on the front page of the NY Times. Find the article, read it, and comment on it.
